Title: Xampp Installation

Submitted to: Engr.Muhmmad Awais

Student Name: Feeza Kulsoom

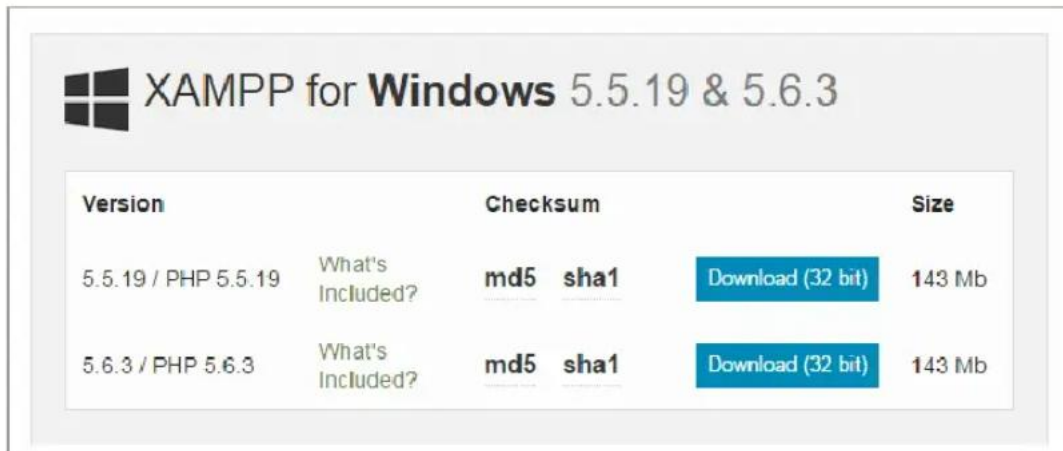

Roll No: 2024-SE-03

Reg Number: 2024-UMDB-004738

Installation of XAMPP

Step 1: Download XAMPP

Opened the Apache Friends official website and downloaded XAMPP for Windows.

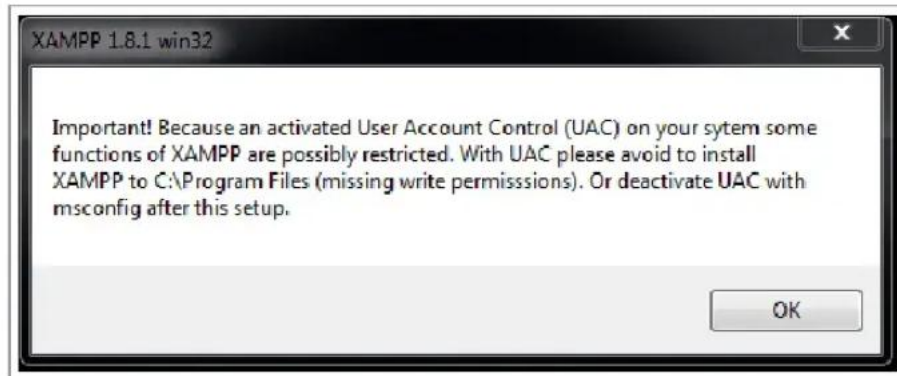

Step 2: Run Setup File

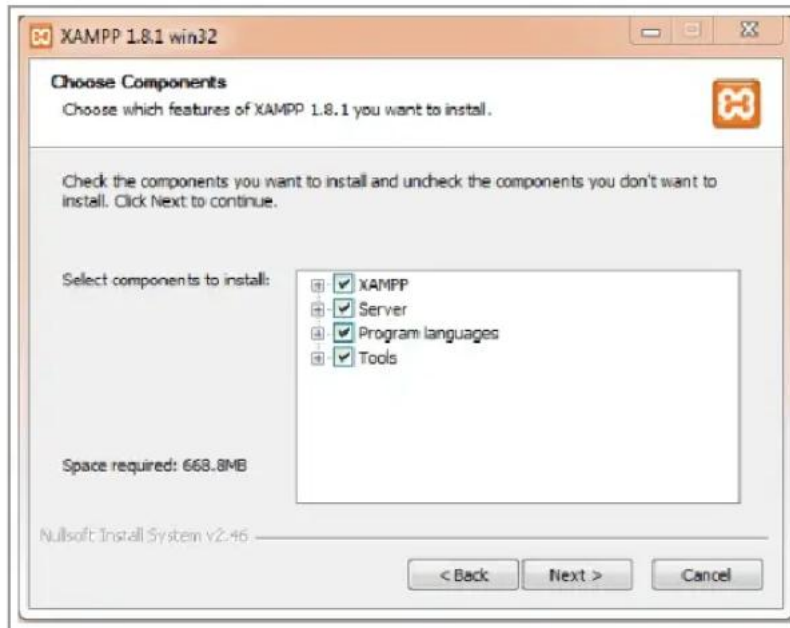

Ran the downloaded .exe file as administrator to start the installation wizard and select language.

Step 3: Select Components

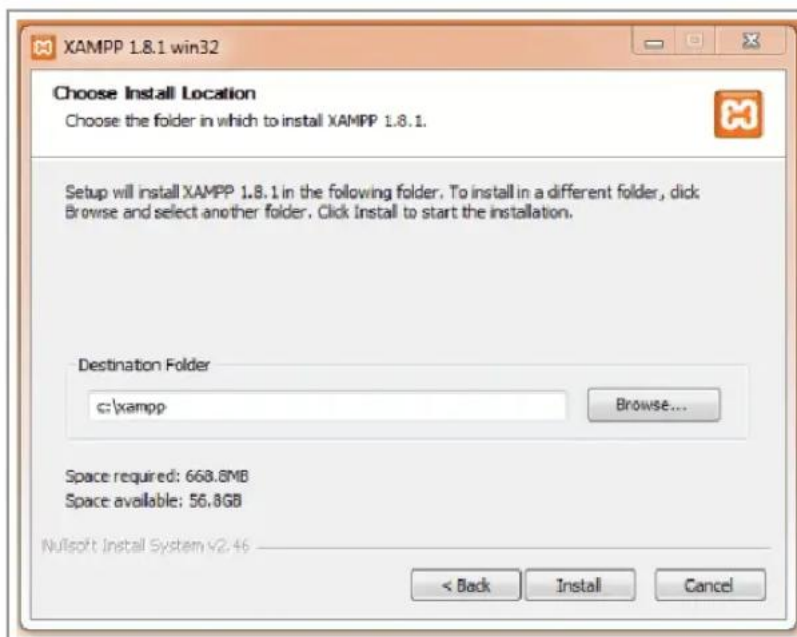

Selected Apache, MySQL, PHP, and phpMyAdmin components. Left other options unchecked.

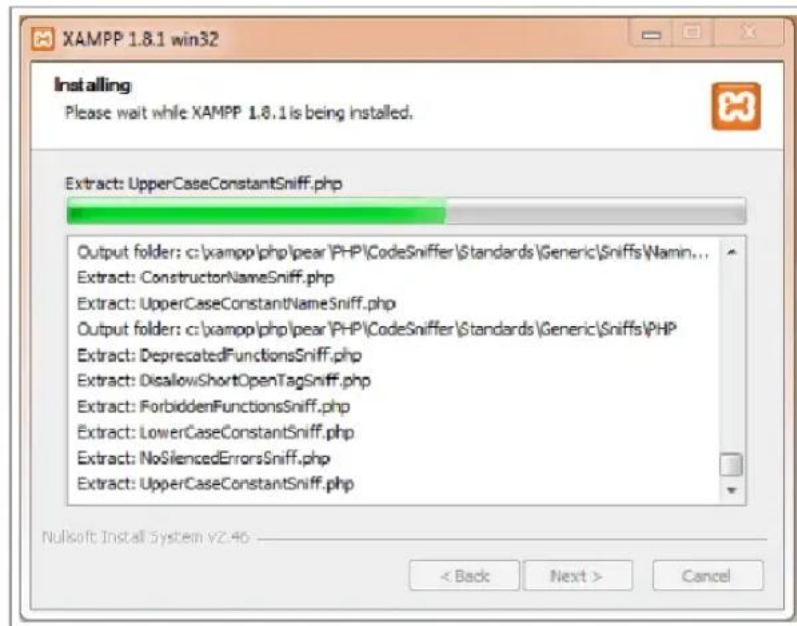

Step 4: Choose Installation Folder

Kept the default installation path as C:\xampp and clicked “Next”.

Step 5: Install XAMPP

Waited while the setup installed all selected components.

Step 6: Complete Installation

Clicked "Finish" after installation and opened the XAMPP Control Panel.
